ASTHMA POLICY

Signed ... 

Name: Dave Llewellyn

Chair of Governors

Date: February 2021

Signed 

Name: Caroline Carter

Headteacher

Date: February 2021

Background

This policy has been written with advice from the Department for Education & Skills, Asthma UK, the local education authority, local healthcare professionals, the school health service, parents/carers, the governing body and pupils.

This school recognises that asthma is a widespread, serious but controllable condition affecting many pupils at the school. The school positively welcomes all pupils with asthma. This school encourages pupils with asthma to achieve their potential in all aspects of school life by having a clear policy that is understood by school staff, their employers (the local education authority) and pupils. Supply teachers and new staff are also made aware of the policy. All staff who come into contact with pupils with asthma are provided with training on asthma from the school nurse who has had asthma training. Training is updated once a year.

The school:

- recognises that asthma is a widespread, serious but controllable condition and the school welcomes all pupils with asthma
- ensures that pupils with asthma can and do participate fully in all aspects of school life, including art lessons, PE, science, visits, outings or field trips and other out-of-hours school activities
- recognises that pupils with asthma need immediate access to reliever inhalers at all times
- keeps a record of all pupils with asthma and the medicines they take
- ensures that the whole school environment, including the physical, social, sporting and educational environment, is favourable to pupils with asthma
- ensures that all pupils understand asthma
- ensures that all staff (including supply teachers and support staff) who come into contact with pupils with asthma know what to do in an asthma attack
- understands that pupils with asthma may experience bullying and has procedures in place to prevent this
- will work in partnership with all interested parties including the school's governing body, all school staff, school nurses, parents/carers, employers of school staff, doctors, nurses and pupils to ensure the policy is planned, implemented and maintained successfully.

School staff

All school staff have a responsibility to:

- understand the school asthma policy
- know which pupils they come into contact with have asthma
- know what to do in an asthma attack
- allow pupils with asthma immediate access to their reliever inhaler
- tell parents/carers if their child has had an asthma attack

- tell parents/carers if their child is using more reliever inhaler than they usually would
- ensure pupils have their asthma medicines with them when they go on a school trip or out of the classroom
- ensure pupils who have been unwell catch up on missed school work
- be aware that a pupil may be tired because of night-time symptoms
- keep an eye out for pupils with asthma experiencing bullying
- liaise with parents/carers, the school nurse and special educational needs coordinators if a child is falling behind with their work because of their asthma.

Parents/carers have a responsibility to:

- tell the school if their child has asthma
- inform the school about the medicines their child requires during school hours
- inform the school of any medicines the child requires while taking part in visits, outings or field trips and other out-of-school activities such as school team sports
- tell the school about any changes to their child's medicines, what they take and how much
- inform the school of any changes to their child's asthma (for example, if their symptoms are getting worse or they are sleeping badly due to their asthma)
- ensure their child's reliever inhaler (and spacer where relevant) is labelled with their name
- keep their child at home if they are not well enough to attend school
- ensure their child has regular asthma reviews with their doctor or asthma nurse (every six to 12 months)

Asthma medicines

- Immediate access to reliever medicines is essential. Pupils with asthma are encouraged to carry their reliever inhaler as soon as the parent/carer, doctor or asthma nurse and class teacher agree they are mature enough. The reliever inhalers of younger children are kept in the classroom in the medical cupboard. All inhalers must be labelled with the child's name by the parent/carer.
- The school is provided with a labelled spare reliever inhaler. This separately in the school medical room in case the pupil's own inhaler runs out, or is lost or forgotten.
- School staff are not required to administer asthma medicines to pupils (except in an emergency), however many of the staff at this school are happy to do this. School staff who agree to administer medicines are insured by the local education authority when acting in agreement with this policy. All school staff will let pupils take their own medicines when they need to.

Record keeping

- At the beginning of each school year or when a child joins the school, parents/carers are asked if their child has any medical conditions including asthma on their enrolment form.
- Parents/carers are also asked to update school if their child's medicines, or how much they take, changes during the year.
- Forms are sent home on an annual basis to keep information up to date.

Exercise and activity

PE and games

- Taking part in sports, games and activities is an essential part of school life for all pupils. All teachers know which children in their class have asthma and all PE teachers at the school are aware of which pupils have asthma from the school's asthma register.
- Pupils with asthma are encouraged to participate fully in all PE lessons. PE teachers will remind pupils whose asthma is triggered by exercise to take their reliever inhaler before the lesson, and to thoroughly warm up and down before and after the lesson. It is agreed with PE staff that each pupil's inhaler will be labelled and kept in a box at the site of the lesson. If a pupil needs to use their inhaler during a lesson they will be encouraged to do so.
- Classroom teachers follow the same principles as described above for games and activities involving physical activity.

Out-of-hours sport

- There has been a large emphasis in recent years on increasing the number of children and young people involved in exercise and sport in and outside of school. The health benefits of exercise are well documented and this is also true for children and young people with asthma. It is therefore important that the school involve pupils with asthma as much as possible in after school clubs.
- PE teachers, classroom teachers and out-of hours school sport coaches are aware of the potential triggers for pupils with asthma when exercising, tips to minimise these triggers and what to do in the event of an asthma attack. All staff and sports coaches are provided with training from the school nurse, who has had asthma training.

School environment

- The school does all that it can to ensure the school environment is favourable to pupils with asthma. The school has a definitive no-smoking policy. As far as possible the school does not use chemicals in science and art lessons that are potential triggers for pupils with asthma. Pupils with asthma are encouraged to leave the room and go and sit in the school office if particular fumes trigger their asthma.

Making the school Asthma-friendly

- The school ensures that all pupils understand asthma. Asthma can be included in the National Curriculum Key Stages 1 and 2 in science, design and technology, geography, history and PE.

Asthma and the Impact on Learning

- If a pupil is missing a lot of time at school or is always tired because their asthma is disturbing their sleep at night, the class teacher will initially talk to the parents/carers to work out how to prevent their child from falling behind. If appropriate, the teacher will then talk to the school nurse and special education needs coordinator about the pupil's needs.
- The school recognises that it is possible for pupils with asthma to have special education needs due to their asthma.

Asthma attacks

- All staff who come into contact with pupils with asthma know what to do in the event of an asthma attack.
- In the event of an asthma attack the school follows the procedure outlined by Asthma UK in its School Asthma Pack. This procedure is visibly displayed in the staffroom and every classroom (see page 2 and 3 of Asthma Awareness for School Staff).
